Personal Profile

A motivated and detail-oriented IT graduate with 2 years of professional experience specialising in MERN stack (MongoDB, Express.js, React, Node.js) and PHP-based solutions, in addition to an excellent academic record in B. Tech information technology. Skilled of designing scalable, user-centric online apps while maintaining high quality standards through logical reasoning, adaptability, and analytical thinking. Seeking for full-stack development knowledge and a process-oriented approach to Process Executive, Web Development and Software roles. Highly adaptive, with strong problem-solving and communication abilities and a "can-do" attitude.

Work Experience

Cashigo IT Private Limited, Perinthalmanna | Nov 2025 – Nov 2026
Software Engineer

- Developing and maintaining responsive full-stack web applications using MERN stack technologies.
- Collaborating with cross-functional teams to design, implement, and optimize scalable web solutions.
- Enhancing performance, debugging issues, and ensuring smooth UI/UX experiences.
- Utilizing React.js, Node.js, Express.js, and MongoDB to deliver high-quality, data-driven solutions.

Concepts 360 Plus | Feb 2025-Jul 2025
Junior Software Developer

- Built and optimized ERP-based applications using PHP (CodeIgniter 3), MySQL, and JavaScript.
- Developed and maintained role-based access control and custom modules to improve operational efficiency.
- Collaborated on API integrations and backend performance tuning for scalable solutions.
- Strengthened understanding of MVC architecture and enterprise resource planning systems.

Pokak Technologies Pvt. Ltd | Jan 2024–Feb 2025
React Developer

- Developed dynamic and responsive front-end interfaces for e-commerce and enterprise web platforms.
- Translated design mock-ups into efficient React.js components with reusable code architecture.
- Enhanced application performance through debugging and API optimization.
- Worked closely with UI/UX teams to ensure intuitive and responsive user experiences.

Projects and Internships

Softroniics, Palakkad | Jul 2023 – Jan 2024
MERN Stack Developer Intern

- Gained hands-on experience in full-stack development during a 6-month internship.
- Contributed to both front-end and back-end development using React.js, Node.js, Express.js, and MongoDB.
- Participated in collaborative code reviews and agile sprints to enhance project delivery.
- Developed functional prototypes and integrated database solutions for client project.

Fertilizer Recommendation using Machine Learning | Jun 2022 – Dec 2022

- Designed a predictive model to recommend fertilizers based on soil and environmental parameters.
- Applied Python, MySQL, and machine learning techniques for accurate prediction and analysis.

Project Approval System (PHP-based) | Jul 21 – Dec 21

- Built a web-based application for automated project approval workflows.
- Implemented user authentication, data validation, and admin modules using PHP and MySQL.

Education

Hindustan Institute of Technology | 2019 – Sep 2023
Bachelor of Technology (B. Tech), Information Technology- 8.4 CGPA

Assisi E.M.H.S.S, Palakkad India | 2018-2019
Science with Maths and Biology – 81% pass

Assisi E.M.H.S.S, Palakkad India | 2016-2017
SSLC – 86% pass

Professional Skills

- React.js, Redux
- Node.js, Express.js,Nest.js
- Angular.js
- Next.js
- MongoDB
- JavaScript
- PHP (CodeIgniter 3)
- MySQL
- jQuery
- AJAX
- HTML
- CSS
- Git
- REST APIs, API Implementation, MVC
- Laravel, CodeIgniter
- Python, Java, C, C++, C#
- Manual testing, software
- Microsoft Office- Word, PowerPoint, Excel, Outlook

Soft Skills

- Strong written and verbal communication and interpersonal skills aiding collaboration.
- Critical thinking, adaptability and problem solving.
- Project management and leadership.
- Logical Reasoning.
- Work well in a Team and independently.
- Attention to Detail.
- Languages – English, Malayalam (Native), Tamil, Hindi.
